Dear Trevor and Annie

I am writing to thank you for the 'BRIAN THE AMAZING BRAIN' kit and training that you gifted to the Mental Health Service. I am very pleased to report that it has become a useful part of the education sessions I offer clinicians and members of the public. It is a great way to remind our staff to take care of the basics (food, water, and sleep) in order to maintain and maximise their own health. This in turn becomes healthy behaviours that are modelled to our clients, carers and family members.

When I first viewed the product over a year ago, I could quickly identify the role the kit would play in the education of children. The surprise for me has been the ability to utilise the kit and contents with adults and the positive feedback it has earned for my sessions.

Thanks again for your generosity.

Yours sincerely

Susan Webster
